

POUDRE FOOTBALL

WE ARE STRONG BECAUSE WE WORK TOGETHER AS ONE

Our Mission: *As a football program we strive to develop the mind, body and spirit of our student athletes, to honor the legacy of those who came before us, and to push forward to the next level with character at the core of all we do.*

Our Vision: *We strive to build the premier football program in Northern Colorado where we are known for developing men of character first and foremost. With this as our focus we will achieve feats on and off the field previously not thought possible.*

Our Family: *A team is not just a group of people who work together; a team is a group of people who trust and care for each other. The Poudre Football family has deep roots that span generations and we share a bond that can never be broken, we care for one another and once you are part of the Poudre Football family you are always one of us.*

Our Legacy: *We are very proud of the fact that every year we have Poudre Football student-athletes who continue their football careers at the collegiate level. Many college programs know the kind of players who come out of Poudre and the young men they become. In 2017 we had over 25 college programs who visited our campus to visit prospective athletes.*
